Rumble Golf Classic

Monday, May 8th, 2017

Their Ride is Our Ride

Rumble Against Cancer (RAC) is a Nonprofit 501 (c) (3) Public Charity that supports and ministers to individuals suffering from the devastating effects of cancer, and promotes the importance of cancer research and its results through motorcycle rides and rallies. Funds received by RAC are primarily used to support those individuals that have been impacted by cancer or who are suffering from its devastating effects, but may also be used to promote and fund cancer research.

Support

RAC's core mission and passion is to minister to individuals and families suffering with cancer with the love of God. Recognizing that there is no possible way for RAC to assist everyone in need, RAC considers its greatest impact will be that of encouragement, prayer and lifting the spirits of those suffering. As funds are available RAC will also endeavor to set aside a portion of its proceeds to directly benefit those individuals and families who are struggling to make ends meet.

Promoting Research

RAC's secondary goal is to encourage donations for cancer research. Through the use of motorcycles, motorcycle rallies and related events, RAC intends to target this market and encourage its participants to fund local hospital research departments, research instructions and charities that support research.

Direct Research

RAC's longer-term goal is to be a direct supporter of research institutions and become a major contributor of the funds necessary to develop the innovations that reduce or eventually eliminate cancer.
